

# U.S. Gluten Free Products

Some people suffer from an intolerance to foods containing gluten, which is a type of protein found in wheat, rye and barley. Frito-Lay has validated through analytical testing that the following products contain less than 20 ppm of gluten, the level put forward in the FDA's Gluten Free Food Labeling Final Rule.

Please note: The information provided pertains only to products distributed in the U.S. Products sold in other countries under similar brands may be made using slightly different recipes and ingredients to accommodate local needs and preferences.
